### NOTES:

The Location Summary identifies the center of the smallest ring in the map above. The location data provides various types of identification to better describe the location. The GIS data can be used to map the location in Google maps or Google Earth.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community.

Location Composition: Listed are the total number of people and the total number of households corresponding to each of the 3 bands indicated on the map on page one.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

## Acts 10:9-10

During the night a vision appeared to Paul: a Macedonian man was standing and pleading with him, "Cross over to Macedonia and help us!" After he had seen the vision, we immediately made efforts to set out for Macedonia, concluding that God had called us to evangelize them.

## Top Community Types

Households: 1,833  
Percent: 63.05%

### Mainstay Communities

The backbone of small towns and second cities, Mainstay Communities are established neighborhoods where residents enjoy strong relational ties. These moderately educated wage earners are employed in well-paying blue collar and professional service jobs. The aging adult population consists of retired American singles and couples. A sense of belonging within the community is a key identity factor for those who live there. Outside the nation's larger metro areas, residents can savor the familiarity of the small town café, or venture into the city to frequent comedy clubs, nightclubs and malls.

Households: 476  
Percent: 16.37%

### Working Communities

Most residents are high school educated; some have even been to college. Their education affords them lower middle incomes through blue collar jobs in manufacturing, construction, health services, retail, wholesale and food service that provide a stable household economy supporting personal and family pursuits in everyday life. This ethnically diverse mix of single and married homeowners dwells in densely populated areas and small-town suburbs. Adherence to traditional family values and resistance to authority are key aspects of their psychological nature.

Households: 273  
Percent: 9.39%

### Country Communities

Land, family and community are central to the day-to-day lives of the people. They work hard to provide a steady, peaceful family life through farming, agriculture, education, mining and service industries. With low levels of education, these primarily white family households earn wages in the lower middle income bracket. Residents live in single-family homes, mobile homes or trailers in rural tracts and neighborhoods. Pickup trucks, sedans and compact cars are the most common vehicles of choice. More than two-thirds are middle-aged households who do not have children living at home.

Non-Evangelical but NOT Interested	1,174	40.38%

## Top Lifestyle Segments

### Family Convenience

Family Convenience is a collection of sprawling families living in remote towns and military bases. Most of the households contain dual-income couples working at skilled blue-collar jobs in manufacturing and construction as well as in the military. Service families are six times as likely to live here than the general population. Despite moderate educations, the adults in this segment earn upper-middle incomes.

Households: 1,180  
Percent: 40.59%

### Prime Middle America

Prime Middle America features a mix of couples and families living in both small towns and mid-sized cities in the South and Northwest. Younger than average and upper-middle-class in status, these predominantly white dual-income households have well-paying blue-collar and white-collar jobs in transportation, manufacturing and public administration. Most of the households own their own homes and are nearly twice as likely to live in mobile homes.

Households: 628  
Percent: 21.6%

### Steadfast Conservatives

A quietly aging cluster, Steadfast Conservatives is home to mature singles and couples living in midscale urban neighborhoods. Households tend to be white, high school-educated and middle class. Many have begun to empty-nest or are already filled with couples and singles aged 65 years or older. The seniority of many residents does have benefits in the workplace. They earn middle class incomes from skilled jobs in manufacturing, retail and health.

Households: 471  
Percent: 16.2%
