NOTES:

The Location Summary identifies the center of the smallest ring in the map above. The location data provides various types of identification to better describe the location. The GIS data can be used to map the location in Google maps or Google Earth.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community.

Location Composition: Listed are the total number of people and the total number of households corresponding to each of the three bands indicated on the map on page one.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

Acts 10:9-10

During the night a vision appeared to Paul: a Macedonian man was standing and pleading with him, "Cross over to Macedonia and help us!" After he had seen the vision, we immediately made efforts to set out for Macedonia, concluding that God had called us to evangelize them.

Top Community Types

Country Communities

Land, family and community are central to the day-to-day lives of the people. They work hard to provide a steady, peaceful family life through farming, agriculture, education, mining and service industries. With low levels of education, these primarily white family households earn wages in the lower middle income bracket. Residents live in single-family homes, mobile homes or trailers in rural tracts and neighborhoods. Pickup trucks, sedans and compact cars are the most common vehicles of choice. More than two-thirds are middle-aged households who do not have children living at home.

Households: 449
Percent: 29.68%

Mainstay Communities

The backbone of small towns and second cities, Mainstay Communities are established neighborhoods where residents enjoy strong relational ties. These moderately educated wage earners are employed in well-paying blue collar and professional service jobs. The aging adult population consists of retired American singles and couples. A sense of belonging within the community is a key identity factor for those who live there. Outside the nation's larger metro areas, residents can savor the familiarity of the small town cafe, or venture into the city to frequent comedy clubs, nightclubs and malls.

Households: 368
Percent: 24.32%

Urban Communities

The people are poor, struggling and largely single. Some are single parents with large families. Unemployment is double the national average. For the minority families in Urban Communities, struggling to balance priorities and budgets in a climate of institutional prejudice creates a lack of stability and control. Residing within major metropolitan cities and towns, most households live in apartments. Those who drive choose economy, import, and domestic cars or small trucks. This group finds employment within food and health services, education, retail, and the entertainment industry.

Households: 306

Top Lifestyle Segments

Rural Southern Living

(59% Unreached)

Scattered in sparsely settled communities across the South, the households in Rural Southern Living consist of young, predominantly white couples and families with lower-middle-class lifestyles. No segment has more residents living in mobile homes with more than half the households living in manufactured housing. The adults are high school educated and work at blue-collar jobs in manufacturing, construction and transportation.

Households: 427
Percent: 28.22%

African-American Neighborhoods

(70% Unreached)

Young, working-class city dwellers make up African-American Neighborhoods. About three-quarters of the households are African-American and one in four adults is under 35 years old. This is an economically challenged area characterized by relatively high unemployment, low educational levels and single-parent families. A majority of residents have completed high school or some college, and most are earning their paychecks through jobs in health, education and food service.

Households: 193
Percent: 12.76%

Prime Middle America

(65% Unreached)

Prime Middle America features a mix of couples and families living in both small towns and mid-sized cities in the South and Northwest. Younger than average and upper-middle-class in status, these predominantly white dual-income households have well-paying blue-collar and white-collar jobs in transportation, manufacturing and public administration. Most of the households own their own homes and are nearly twice as likely to live in mobile homes.

Households: 170
