NOTES:

The Communities Summary identifies the top three types of communities in the zip code, the number of households, and the percent of the zip code. Communities are comprised of multiple lifestyle segments.

The Lifestyle Summary identifies the top six lifestyle segments in the zip code, the number of households, percent of the zip code households, and the percent of households that are unreached. Lifestyle Segments are individual groups of people with similar living preferences and patterns.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community.

Location Composition: Listed are the total number of people and the total number of households in the county.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

Rev. 5:9

And they sang a new song, saying: "You are worthy to take the scroll and to open its seals, because you were slain, and with your blood you purchased for God persons from every tribe and people and language and people and nation."

Percent: 5.8%

Urban Communities

The people are poor, struggling and largely single. Some are single parents with large families; most have below-average incomes. Unemployment is double the national average. For the African-American and Hispanic families in Urban Communities, struggling to balance priorities and budgets in a climate of institutional prejudice creates a lack of stability and control. Residing within major metropolitan cities and towns, most households live in apartments.

Aspiring Communities

Young, ambitious and culturally diverse, they are the evolving voice of American society. In Aspiring Communities, truth is centered around "me" and everything is interconnected. The majority of people in this group are between the ages of 18 – 34. Sixty percent are renting singles; others live on military bases or in college dorms. Members of Aspiring Communities are four times more likely to be unemployed. Of those who work, most live in or conveniently close to metropolitan areas.

Country Communities

Land, family and community are central to the day-to-day lives of the people in these farming and mining communities. They work hard to provide a steady, peaceful family life through farming, agriculture, education, mining and service industries. With low levels of education, these primarily white family households earn wages in the lower middle income bracket. Residents live in single-family homes, mobile homes or trailers in rural tracts and neighborhoods.

Top Lifestyle Segments in Zipcode 35618

Households: 636
Percent: 67.02%

Struggling City Centers

(68% Unreached)

Struggling City Centers consists of very low-income households living in city neighborhoods. Home to the highest concentration of African-Americans in the nation-nearly 90 percent of all households-the cluster faces hard economic challenges. One-third of households haven't finished high school, with a similar percentage containing single-parent families. One in five adults are under 35 years old and the median household income is only half the national average.

Households: 191
Percent: 20.13%

Minority Metro Communities

(74% Unreached)

Minority Metro Communities reflects the nation's growing African-American middle class. With nearly three-quarters of the residents African-American and half the households earning more than \$50,000, this cluster is a testament to high educational achievement and professional employment among African-Americans. Concentrated in inner-ring suburbs, these households earn above-average incomes from a mix of service industry and white-collar jobs.

Households: 49
Percent: 5.16%

Steadfast Conservatives

(69% Unreached)

A quietly aging cluster, Steadfast Conservatives is home to mature singles and couples living in midscale urban neighborhoods. Households tend to be white, high school-educated and middle class. Many have begun to empty-nest or are already filled with couples and singles aged 65 years or older. The seniority of many residents does have benefits in the workplace. They earn middle class incomes from skilled jobs in manufacturing, retail and health.

Hinterland Families

(41% Unreached)

Hinterland Families is a collection of families and couples who've settled in isolated towns and villages throughout the South. These mostly middle-aged households are overwhelmingly white, less educated (one-fifth never completed high school) and working-class. They work in a variety of blue-collar jobs in manufacturing, construction, transportation and agriculture. Though most live in inexpensive houses, one-third reside in mobile homes.

Households: 48
Percent: 5.06%

Coal and Crops

(61% Unreached)

Coal and Crops comes by its name honestly. The households of this rural cluster work primarily in the mining and farming industries. Found in sparsely populated areas throughout the Midwest and South, this cluster is characterized by low-income families and single households living in small, racially mixed hamlets. More than one-quarter of the residents never completed high school, the median household incomes are nearly 40 percent below the U.S. average.

Households: 7
Percent: 0.74%

Rugged Rural Style

(58% Unreached)

Rugged Rural Style consists of some of the most isolated communities in America. In these rural working-class households across the Southwest and Western states, predominantly older married couples and retirees live in aging houses and mobile homes. Those still working have blue-collar jobs in construction, manufacturing and agriculture-the cluster has more than four times as many farmers as the general population.

Households: 7
