NOTES:

The Communities Summary identifies the top three types of communities in the zip code, the number of households, and the percent of the zip code. Communities are comprised of multiple lifestyle segments.

The Lifestyle Summary identifies the top six lifestyle segments in the zip code, the number of households, percent of the zip code households, and the percent of households that are unreached. Lifestyle Segments are individual groups of people with similar living preferences and patterns.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community.

Location Composition: Listed are the total number of people and the total number of households in the county.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

Country Communities

Land, family and community are central to the day-to-day lives of the people in these farming and mining communities. They work hard to provide a steady, peaceful family life through farming, agriculture, education, mining and service industries. With low levels of education, these primarily white family households earn wages in the lower middle income bracket. Residents live in single-family homes, mobile homes or trailers in rural tracts and neighborhoods.

Mainstay Communities

The backbone of small towns and second cities, Mainstay Communities are established neighborhoods where residents enjoy strong relational ties. These moderately educated wage earners are employed in well-paying blue collar and professional service jobs. The aging adult population consists of retired American singles and couples. A sense of belonging within the community is a key identity factor for those who live there. Residents go into the city to visit clubs and malls.

Working Communities

Most residents of Working Communities are high school educated. Some have even been to college. Their education affords them lower middle incomes through blue collar jobs in manufacturing, construction, health services, retail, wholesale and food service. These jobs provide a stable household economy supporting personal and family pursuits in everyday life. This ethnically diverse mix of single and married homeowners dwells in densely populated areas and small-town suburbs.

Top Lifestyle Segments in Zipcode 50157

America's Farmlands (57% Unreached)

With more than nine times the national average for farmers, America's Farmlands has the highest percentage of farmers in the nation. In these remote communities scattered across the nation, residents are likely to have high school diplomas and middle-class incomes. Many live in older, single-family homes on large plots of land. The population density in this segment is less than one-tenth the national average.

Households: 307
Percent: 84.34%

Prime Middle America (65% Unreached)

Prime Middle America features a mix of couples and families living in both small towns and mid-sized cities in the South and Northwest. Younger than average and upper-middle-class in status, these predominantly white dual-income households have well-paying blue-collar and white-collar jobs in transportation, manufacturing and public administration. Most of the households own their own homes and are nearly twice as likely to live in mobile homes.

Households: 12
Percent: 3.3%

Industrious Country Living (68% Unreached)

Found in remote towns and villages across the country, Industrious Country Living consists of hard-working couples and families who earn their living from manufacturing, construction, retail and wholesale trades and home businesses. They're predominantly white, high school educated and owners of relatively new homes. They earn respectable incomes with one in three households earning more than \$75,000 per year.

Urban Blues (64% Unreached)

While many residents in this cluster may be singing the Urban Blues, the tune probably has a Latin beat. More than three-quarters of all households in this segment are Hispanic-roughly six times the U.S. average. They tend to be mostly young singles, families and single parents living in urban areas primarily in the Southwest. Their schooling is modest and their unemployment rate is more than twice the national average.

Households: 6

Moderate Conventionalists (67% Unreached)

With many key demographic measures close to the national average-including age, income and education- members of Moderate Conventionalists epitomize average Americans. Scattered throughout second-tier cities in the Midwest and West Coast, these singles and couples tend to live in modest homes, semi-detached houses and apartments. Most have completed high school or some college and hold well-paying blue-collar and white-collar jobs.
