### NOTES:

The Communities Summary identifies the top three types of communities in the zip code, the number of households, and the percent of the zip code. Communities are comprised of multiple lifestyle segments.

The Lifestyle Summary identifies the top six lifestyle segments in the zip code, the number of households, percent of the zip code households, and the percent of households that are unreached. Lifestyle Segments are individual groups of people with similar living preferences and patterns.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community.

Location Composition: Listed are the total number of people and the total number of households in the county.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

### Urban Communities

The people are poor, struggling and largely single. Some are single parents with large families; most have below-average incomes. Unemployment is double the national average. For the African-American and Hispanic families in Urban Communities, struggling to balance priorities and budgets in a climate of institutional prejudice creates a lack of stability and control. Residing within major metropolitan cities and towns, most households live in apartments.

### Mainstay Communities

The backbone of small towns and second cities, Mainstay Communities are established neighborhoods where residents enjoy strong relational ties. These moderately educated wage earners are employed in well-paying blue collar and professional service jobs. The aging adult population consists of retired American singles and couples. A sense of belonging within the community is a key identity factor for those who live there. Residents go into the city to visit clubs and malls.

### Working Communities

Most residents of Working Communities are high school educated. Some have even been to college. Their education affords them lower middle incomes through blue collar jobs in manufacturing, construction, health services, retail, wholesale and food service. These jobs provide a stable household economy supporting personal and family pursuits in everyday life. This ethnically diverse mix of single and married homeowners dwells in densely populated areas and small-town suburbs.

## Top Lifestyle Segments in Zipcode 51101

**Metro Beginnings** (74% Unreached)  
 Married couples with children would feel lonely in Metro Beginnings. No cluster has a higher proportion of one-person households, and most residents live in apartments filled with under-45-year-old singles, divorced men and women, and solo-parent families. In their diverse inner-city neighborhoods-Hispanics and African Americans make up more than half the populace-households struggle against high unemployment, low educational levels and low incomes.

Households: 206  
 Percent: 44.88%

**New Generation Activists** (67% Unreached)  
 Concentrated in the nation's inner cities, New Generation Activists is often the first home-on-their-own cluster for young singles and single-parent families. More than a third of the households are under 35 years old and nearly nine out of 10 are single. This segment reflects a majority minority populace with high numbers of Hispanics and African Americans. With their modest educations and high unemployment rate, households earn about half the national average.

Households: 102  
 Percent: 22.22%

**Getting By** (76% Unreached)  
 Getting By stands at the bottom rung of the socioeconomic ladder, a financially challenged cluster of young high school-educated and mainly African-American households where the median income is lowest in the nation. Much of the housing consists of older rowhouses and low-rise apartments worth less than half the national average. Located in dense neighborhoods, these single and single-parent minority households struggle with high unemployment and low paying jobs.

**College Town Communities** (83% Unreached)  
 Students are the center of community life in College Town Communities. About one in nine residents lives in a dormitory. In this cluster of towns dominated by college campuses residents are primarily young, single and college educated. Because of their youth, many of these recent graduates still report entry-level jobs and low-end incomes which are less than the national average.

Households: 40  
 Percent: 8.71%

**Latino Nuevo** (68% Unreached)  
 In Latino Nuevo, the American Dream lives in young, recent immigrants looking for better lives. Concentrated in the barrios of border states as Texas and California, the populace is more than 90 percent Hispanic and more than three-quarters of adults are under the age of 45. These households are filled with child-rearing families-no cluster contains more large families-and they tend to live in old apartments and low valued homes.

Households: 34  
 Percent: 7.41%

**Urban Blues** (64% Unreached)  
 While many residents in this cluster may be singing the Urban Blues, the tune probably has a Latin beat. More than three-quarters of all households in this segment are Hispanic-roughly six times the U.S. average. They tend to be mostly young singles, families and single parents living in urban areas primarily in the Southwest. Their schooling is modest and their unemployment rate is more than twice the national average.
