Small-city Endeavors has a split personality, reflecting the cluster's mix of young and old, singles, families and single parent households. Adherence to traditional family values and resistance to authority are key aspects of their psychological nature.

#### Urban Communities

The people are poor, struggling and largely single. Some are single parents with large families. Unemployment is double the national average. For the minority families in Urban Communities, struggling to balance priorities and budgets in a climate of institutional prejudice creates a lack of stability and control.
