#### NOTES:

The Communities Summary identifies the top three types of communities in the zip code, the number of households, and the percent of the zip code. Communities are comprised of multiple lifestyle segments.

The Lifestyle Summary identifies the top six lifestyle segments in the zip code, the number of households, percent of the zip code households, and the percent of households that are unreached. Lifestyle Segments are individual groups of people with similar living preferences and patterns

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community.

Location Composition: Listed are the total number of people and the total number of households in the county.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

#### **Upscale Communities**

As the wealthiest households in the nation, upscale communities boast high household incomes, significant home values and top educational achievements. Households in these exclusive suburban neighborhoods are headed by predominantly white, college educated, Baby Boom parents. Most adults work as executives and white collar professionals. They are active members of the community in business clubs, environmental groups and the arts.

#### Aspiring Communities

Young, ambitious and culturally diverse, they are the evolving voice of American society. In Aspiring Communities, truth is centered around "me" and everything is interconnected. The majority of people in this group are between the ages of 18 - 34. Sixty percent are renting singles; others live on military bases or in college dorms. Members of Aspiring Communities are four times more likely to be unemployed. Of those who work, most live in or conveniently close to metropolitan areas.

#### Urban Communities

The people are poor, struggling and largely single. Some are single parents with large families; most have below-average incomes. Unemployment is double the national average. For the African-American and Hispanic families in Urban Communities, struggling to balance priorities and budgets in a climate of institutional prejudice creates a lack of stability and control. Residing within major metropolitan cities and towns, most households live in apartments.

#### Young Cosmopolitans

(78% Unreached)

Young Cosmopolitans is a collection of households where many adults are under 35 years old, single and earning above average incomes as white-collar professionals, managers and executives. In their fast-growing cities- including a number of college towns-these upscale young people live in luxury apartments and condos, commuting to work in sporty subcompacts. Nearly half hold college degrees, and they are almost twice the average for grad degrees.

#### **Dream Weavers**

(72% Unreached)

Dream Weavers is home to well-off families living an affluent, suburban version of the American Dream. Ranked second in terms of wealth, they live in new-money subdivisions, possess high incomes, have college degrees and own large houses valued at more than twice the national average. Many households contain families with school-aged children-no segment has a higher rate of married residents-and more than half contain dual-income couples.

Households: 1,046 Percent: 7.43%

#### Status-conscious Consumer

(70% Unreached)

A haven for big spenders, Status-conscious Consumers is a cluster of new suburban neighborhoods within a manageable commute to well-paying city jobs. Predominantly white and Asian, these middle-aged Baby Boomer households have turned their college educations into lucrative executive positions in information, finance and other managerial professions. Most of the adults live as couples or in households with few children.

#### White-Collar Suburbia

(81% Unreached)

White-collar Suburbia is a haven for upscale Baby Boomers living in suburban comfort. But unlike the overwhelmingly white suburbs of a generation ago, this cluster has the highest concentration of Asians in the nation-about four times the U.S. average. Most of the adults are married couples with children, have attended college and are employed as white-collar professionals, managers and executives.

Households: 978 Percent: 6.95%

#### College Town Communities

(83% Unreached)

Students are the center of community life in College Town Communities. About one in nine residents lives in a dormitory. In this cluster of towns dominated by college campuses residents are primarily young, single and college educated. Because of their youth, many of these recent graduates still report entry-level jobs and low-end incomes which are less than the national average.

#### **Urban Commuter Families**

(67% Unreached)

Not all families have fled the nation's cities for the far-out suburbs. In Urban Commuter Families, Baby Boomer families and couples are content to live in comfortable, single detached homes in city neighborhoods on the metro fringe. Many of these upscale, college-educated households contain dual-income couples who put in long hours as professionals and managers in retail, health care and education services.
