Mainstay Communities

The backbone of small towns and second cities, Mainstay Communities are established neighborhoods where residents enjoy strong relational ties. These moderately educated wage earners are employed in well-paying blue collar and professional service jobs. The aging adult population consists of retired American singles and couples. A sense of belonging within the community is a key identity factor for those who live there. Residents go into the city to visit clubs and malls.

Country Communities

Land, family and community are central to the day-to-day lives of the people in these farming and mining communities. They work hard to provide a steady, peaceful family life through farming, agriculture, education, mining and service industries.

With low levels of education, these primarily white family households earn wages in the lower middle income bracket. Residents live in single-family homes, mobile homes or trailers in rural tracts and neighborhoods.

Working Communities

Most residents of Working Communities are high school educated. Some have even been to college. Their education affords them lower middle incomes through blue collar jobs in manufacturing, construction, health services, retail, wholesale and food service. These jobs provide a stable household economy supporting personal and family pursuits in everyday life. This ethnically diverse mix of single and married homeowners dwells in densely populated areas and small-town suburbs.
