Getting Involved

This mission site is located in the Low Country Region of the South Carolina Baptist Convention. For more information about this need, contact the regional Church Planting Strategist: Carl Martin (carlmartin31@gmail.com)

NOTES:

The Location Summary identifies the center of the smallest ring in the map above. The location data provides various types of identification to better describe the location. The GIS data can be used to map the location in Google maps or Google Earth.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community. The last item in this section reveals how many churches are needed in order to have a minimum of one church for every 2000 hhlds (4000-5000 people).

Location Composition: Listed are the total number of people and the total number of households corresponding to each of the three bands indicated on the map on page one.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

Acts 10:9-10

During the night a vision appeared to Paul: a Macedonian man was standing and pleading with him, "Cross over to Macedonia and help us!" After he had seen the vision, we immediately made efforts to set out for Macedonia, concluding that God had called us to evangelize them.

Top Community Types

Urban Communities

The people are poor, struggling and largely single. Some are single parents with large families. Unemployment is double the national average. For the minority families in Urban Communities, struggling to balance priorities and budgets in a climate of institutional prejudice creates a lack of stability and control. Residing within major metropolitan cities and towns, most households live in apartments. Those who drive choose economy, import, and domestic cars or small trucks. This group finds employment within food and health services, education, retail, and the entertainment industry.

Households: 3,434
Percent: 39.42%

Upscale Communities

As the wealthiest households in the nation, upscale communities boast high household incomes, significant home values and top educational achievements. Households in these exclusive suburban neighborhoods are headed by predominantly white, college educated, Baby Boomer parents. Most work as executives and white collar professionals. They are active members of the community in business clubs, environmental groups and the arts. For upscale community households, disposable income is at a peak. These families enjoy large homes, comfortable lifestyles and shopping for the latest high-tech electronics.

Households: 3,124
Percent: 35.86%

Aspiring Communities

Young, ambitious and culturally diverse, they are the evolving voice of American society. Truth is centered around "me" and everything is interconnected. The majority of people in this group are between the ages of 18 and 34. Sixty percent are renting singles; others live on military bases or in college dorms. They are four times more likely to be unemployed. Of those who work, most live in or conveniently close to metropolitan areas. Career builders who enjoy a moderate income in middle management, they thrive within the IT, sales, administration, education and health care professions.

Households: 1,476
Percent: 16.94%

Evangelscape: Spiritual Indicators

SPIRITUALITY INDICATOR	BAND HHLDS	BAND %
Unreached	6,696	76.86%

Spiritual but NOT Evangelical	1,046	12.01%
Non-Evangelical but NOT Interested	3,595	41.27%

Top Lifestyle Segments

America's Wealthiest

(80% Unreached)

America's Wealthiest consists of the nation's most affluent households found in well established suburban communities. With incomes well above the national average, residents represent both old and new wealth, enjoying very comfortable lifestyles and the finer things in life. These households are more than six times likely to be earning \$250,000 or more. Most of the adults are married, middle aged, college educated and predominantly white.

Households: 1,609
Percent: 18.47%

Affluent Urban Professionals

(81% Unreached)

The puppies of the last decade may have grown up, but their lifestyle lives on. In Affluent Urban Professionals, wealthy singles and couples live in the chic high-rise neighborhoods of many big cities such as New York, Boston and Chicago, owning swank condos and apartments valued at twice the national average. Most residents are in their twenties and thirties, hold college degrees and have jobs as executives and white-collar professionals.

Households: 1,106
Percent: 12.7%

Getting By

(76% Unreached)

Getting By stands at the bottom rung of the socioeconomic ladder, a financially challenged cluster of young high school-educated and mainly African-American households where the median income is lowest in the nation. Much of the housing consists of older rowhouses and low-rise apartments worth less than half the national average. Located in dense neighborhoods, these single and single-parent minority households struggle with high unemployment and low paying jobs.

Households: 964
Percent: 11.07%
