NOTES:

The Communities Summary identifies the top three types of communities in the zip code, the number of households, and the percent of the zip code. Communities are comprised of multiple lifestyle segments.

The Lifestyle Summary identifies the top six lifestyle segments in the zip code, the number of households, percent of the zip code households, and the percent of households that are unreached. Lifestyle Segments are individual groups of people with similar living preferences and patterns.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community.

Location Composition: Listed are the total number of people and the total number of households in the county.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

Rev. 5:9

And they sang a new song, saying: "You are worthy to take the scroll and to open its seals, because you were slain, and with your blood you purchased for God persons from every tribe and people and language and people and nation."

Urban Communities

The people are poor, struggling and largely single. Some are single parents with large families; most have below-average incomes. Unemployment is double the national average. For the African-American and Hispanic families in Urban Communities, struggling to balance priorities and budgets in a climate of institutional prejudice creates a lack of stability and control. Residing within major metropolitan cities and towns, most households live in apartments.

Households: 3,600
Percent: 30.54%

Aspiring Communities

Young, ambitious and culturally diverse, they are the evolving voice of American society. In Aspiring Communities, truth is centered around "me" and everything is interconnected. The majority of people in this group are between the ages of 18 – 34. Sixty percent are renting singles; others live on military bases or in college dorms. Members of Aspiring Communities are four times more likely to be unemployed. Of those who work, most live in or conveniently close to metropolitan areas.

Households: 2,425
Percent: 20.57%

Working Communities

Most residents of Working Communities are high school educated. Some have even been to college. Their education affords them lower middle incomes through blue collar jobs in manufacturing, construction, health services, retail, wholesale and food service. These jobs provide a stable household economy supporting personal and family pursuits in everyday life. This ethnically diverse mix of single and married homeowners dwells in densely populated areas and small-town suburbs.
