### NOTES:

The Location Summary identifies the center of the smallest ring in the map above. The location data provides various types of identification to better describe the location. The GIS data can be used to map the location in Google maps or Google Earth.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community. The last item in this section reveals how many churches are needed in order to have a minimum of one church for every 2000 hhlds (4000-5000 people).

Location Composition: Listed are the total number of people and the total number of households corresponding to each of the three bands indicated on the map on page one.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

### Acts 10:9-10

During the night a vision appeared to Paul: a Macedonian man was standing and pleading with him, "Cross over to Macedonia and help us!" After he had seen the vision, we immediately made efforts to set out for Macedonia, concluding that God had called us to evangelize them.

## Top Community Types

Households: 989  
Percent: 46.28%

### Mainstay Communities

The backbone of small towns and second cities, Mainstay Communities are established neighborhoods where residents enjoy strong relational ties. These moderately educated wage earners are employed in well-paying blue collar and professional service jobs. The aging adult population consists of retired American singles and couples. A sense of belonging within the community is a key identity factor for those who live there. Outside the nation's larger metro areas, residents can savor the familiarity of the small town cafe, or venture into the city to frequent comedy clubs, nightclubs and malls.

Households: 940  
Percent: 43.99%

### Upscale Communities

As the wealthiest households in the nation, upscale communities boast high household incomes, significant home values and top educational achievements. Households in these exclusive suburban neighborhoods are headed by predominantly white, college educated, Baby Boomer parents. Most work as executives and white collar professionals. They are active members of the community in business clubs, environmental groups and the arts. For upscale community households, disposable income is at a peak. These families enjoy large homes, comfortable lifestyles and shopping for the latest high-tech electronics.

Households: 124  
Percent: 5.8%

### Country Communities

Land, family and community are central to the day-to-day lives of the people. They work hard to provide a steady, peaceful family life through farming, agriculture, education, mining and service industries. With low levels of education, these primarily white family households earn wages in the lower middle income bracket. Residents live in single-family homes, mobile homes or trailers in rural tracts and neighborhoods. Pickup trucks, sedans and compact cars are the most common vehicles of choice. More than two-thirds are middle-aged households who do not have children living at home.

## Top Lifestyle Segments

### Family Convenience

(64% Unreached)

Family Convenience is a collection of sprawling families living in remote towns and military bases. Most of the households contain dual-income couples working at skilled blue-collar jobs in manufacturing and construction as well as in the military. Service families are six times as likely to live here than the general population. Despite moderate educations, the adults in this segment earn upper-middle incomes.

Households: 836  
Percent: 39.12%

### New Suburbia Families

(68% Unreached)

Young couples with pre-school children have turned New Suburbia Families into a booming lifestyle. Concentrated in fast-growing, metro fringe communities mainly in the West and Southwest, the segment's population has more than tripled since 1990. With many households under 35 years old, these young families are making the most of their new subdivisions. More than half the housing has a median value worth nearly 50 percent above the U.S. average.

Households: 813  
Percent: 38.04%

### Prime Middle America

(65% Unreached)

Prime Middle America features a mix of couples and families living in both small towns and mid-sized cities in the South and Northwest. Younger than average and upper-middle-class in status, these predominantly white dual-income households have well-paying blue-collar and white-collar jobs in transportation, manufacturing and public administration. Most of the households own their own homes and are nearly twice as likely to live in mobile homes.

Households: 144  
Percent: 6.74%
