NOTES:

The Location Summary identifies the center of the smallest ring in the map above. The location data provides various types of identification to better describe the location. The GIS data can be used to map the location in Google maps or Google Earth.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community. The last item in this section reveals how many churches are needed in order to have a minimum of one church for every 2000 hhlds (4000-5000 people).

Location Composition: Listed are the total number of people and the total number of households corresponding to each of the three bands indicated on the map on page one.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

Acts 10:9-10

During the night a vision appeared to Paul: a Macedonian man was standing and pleading with him, "Cross over to Macedonia and help us!" After he had seen the vision, we immediately made efforts to set out for Macedonia, concluding that God had called us to evangelize them.

Top Community Types

Aspiring Communities

Young, ambitious and culturally diverse, they are the evolving voice of American society. Truth is centered around "me" and everything is interconnected. The majority of people in this group are between the ages of 18 and 34. Sixty percent are renting singles; others live on military bases or in college dorms. They are four times more likely to be unemployed. Of those who work, most live in or conveniently close to metropolitan areas. Career builders who enjoy a moderate income in middle management, they thrive within the IT, sales, administration, education and health care professions.

Households: 606
Percent: 31.66%

Upscale Communities

As the wealthiest households in the nation, upscale communities boast high household incomes, significant home values and top educational achievements. Households in these exclusive suburban neighborhoods are headed by predominantly white, college educated, Baby Boomer parents. Most work as executives and white collar professionals. They are active members of the community in business clubs, environmental groups and the arts. For upscale community households, disposable income is at a peak. These families enjoy large homes, comfortable lifestyles and shopping for the latest high-tech electronics.

Households: 591
Percent: 30.88%

Urban Communities

The people are poor, struggling and largely single. Some are single parents with large families. Unemployment is double the national average. For the minority families in Urban Communities, struggling to balance priorities and budgets in a climate of institutional prejudice creates a lack of stability and control. Residing within major metropolitan cities and towns, most households live in apartments. Those who drive choose economy, import, and domestic cars or small trucks. This group finds employment within food and health services, education, retail, and the entertainment industry.

Households: 344
Percent: 17.97%

Top Lifestyle Segments

Stable Careers

(72% Unreached)

Stable Careers is a collection of young and ethnically diverse singles living in big-city metros as Los Angeles, CA, Philadelphia, PA and Miami, FL. A quarter of the households are of Hispanic and Asian and are slightly less affluent than others dominated by Generation Y residents. More than half of households have gone to college and most have landed white-collar jobs in retail, health services and professional offices.

Households: 567
Percent: 29.62%

New Generation Activists

(67% Unreached)

Concentrated in the nation's inner cities, New Generation Activists is often the first home-on-their-own cluster for young singles and single-parent families. More than a third of the households are under 35 years old and nearly nine out of 10 are single. This segment reflects a majority minority populace with high numbers of Hispanics and African Americans. With their modest educations and high unemployment rate, households earn about half the national average.

Households: 344
Percent: 17.97%

Second-generation Success

(74% Unreached)

These grandchildren of immigrants who live in Second-generation Success, life is sweet. These multi-ethnic households-of Asian, Hispanic and varied European descent-have achieved upper-middle-class status through hard work and devotion to family. They are primarily married couples with children. Their household size with five or more people is almost double the U.S. average. More than half of adults have attended college.
