Getting Involved

This mission site is located in the Front

Range of the Colorado Baptist General Convention. For more information about this need, contact the regional Church Planting Strategist: Jim Misloski (jmisloski@cbgc.org)

NOTES:

The Location Summary identifies the center of the smallest ring in the map above. The location data provides various types of identification to better describe the location. The GIS data can be used to map the location in Google maps or Google Earth.

The numbers in the Evangelscape communicate the most compelling reasons why this community needs churches and believers to intercede in missional prayer and activity. This community needs eternal transformation that only comes by way of the gospel and the working of the Holy Spirit.

Churchscape indicators reveal a snapshot of the extent of evangelical presence in the focus community. The last item in this section reveals how many churches are needed in order to have a minimum of one church for every 2000 hhlds (4000-5000 people).

Location Composition: Listed are the total number of people and the total number of households corresponding to each of the three bands indicated on the map on page one.

Cultural bridges are those characteristics that could be used to build relationships with people in the lifestyle group. Various activities, interests, or opinions represented among the consumer behavior characteristics of the lifestyle group offer ways for believers to build relationships with people in the lifestyle group and through that relationship impact them for Christ.

Acts 10:9-10

During the night a vision appeared to Paul: a Macedonian man was standing and pleading with him, "Cross over to Macedonia and help us!" After he had seen the vision, we immediately made efforts to set out for Macedonia, concluding that God had called us to evangelize them.

Top Community Types

Households: 550
Percent: 87.3%

Upscale Communities

As the wealthiest households in the nation, upscale communities boast high household incomes, significant home values and top educational achievements. Households in these exclusive suburban neighborhoods are headed by predominantly white, college educated, Baby Boomer parents. Most work as executives and white collar professionals. They are active members of the community in business clubs, environmental groups and the arts. For upscale community households, disposable income is at a peak. These families enjoy large homes, comfortable lifestyles and shopping for the latest high-tech electronics.

Households: 80
Percent: 12.7%

Aspiring Communities

Young, ambitious and culturally diverse, they are the evolving voice of American society. Truth is centered around "me" and everything is interconnected. The majority of people in this group are between the ages of 18 and 34. Sixty percent are renting singles; others live on military bases or in college dorms. They are four times more likely to be unemployed. Of those who work, most live in or conveniently close to metropolitan areas. Career builders who enjoy a moderate income in middle management, they thrive within the IT, sales, administration, education and health care professions.

Households: 0
Percent: 0%

Country Communities

Land, family and community are central to the day-to-day lives of the people. They work hard to provide a steady, peaceful family life through farming, agriculture, education, mining and service industries. With low levels of education, these primarily white family households earn wages in the lower middle income bracket. Residents live in single-family homes, mobile homes or trailers in rural tracts and neighborhoods. Pickup trucks, sedans and compact cars are the most common vehicles of choice. More than two-thirds are middle-aged households who do not have children living at home.

Evangelscape: Spiritual Indicators

SPIRITUALITY INDICATOR	BAND HHLDS	BAND %
Unreached	445	70.78%
Religious but NOT Evangelical	95	15.18%
Spiritual but NOT Evangelical	92	14.61%
Non-Evangelical but NOT Interested	258	40.99%

Top Lifestyle Segments

New Suburbia Families

(68% Unreached)

Young couples with pre-school children have turned New Suburbia Families into a booming lifestyle. Concentrated in fast-growing, metro fringe communities mainly in the West and Southwest, the segment's population has more than tripled since 1990. With many households under 35 years old, these young families are making the most of their new subdivisions. More than half the housing has a median value worth nearly 50 percent above the U.S. average.

Households: 433
Percent: 68.73%

White-Collar Suburbia

(81% Unreached)

White-collar Suburbia is a haven for upscale Baby Boomers living in suburban comfort. But unlike the overwhelmingly white suburbs of a generation ago, this cluster has the highest concentration of Asians in the nation-about four times the U.S. average. Most of the adults are married couples with children, have attended college and are employed as white-collar professionals, managers and executives.

Households: 77
Percent: 12.22%

Young Cosmopolitans

(78% Unreached)

Young Cosmopolitans is a collection of households where many adults are under 35 years old, single and earning above average incomes as white-collar professionals, managers and executives. In their fast-growing cities- including a number of college towns-these upscale young people live in luxury apartments and condos, commuting to work in sporty subcompacts. Nearly half hold college degrees, and they are almost twice the average for grad degrees.

Households: 72
Percent: 11.43%
